## About Us

It is our pleasure to introduce "GRACE QATAR Trading & Contracting WLL"- Aluminum and Glass Division, Established under the law of the state of Qatar, having it's own Office in C'Ring Road and Workshop at Shahaniya & Abuhamoor, Doha-Qatar

**Aluminium** is an alloy (a compound consisting of many materials) having many unique and functional properties. Because of its characteristics like high strength, durability, corrosion resistance and most importantly its recycling feature makes aluminium a most imperative material in the building industry. It has made a reputed position in the construction industry. Over the past 50 years, aluminium is used in various building applications like manufacturing of Architectural Aluminium Products and has shown an incessant and consistent growth in the construction industry.

It is important to select the correct building material and windows, doors and glazing of your requirement. The aesthetic value and style you choose will make an impact on the appearance of the building. Architectural Aluminium Products, Windows, doors, etc. used form an integral part of the building.
